Linz verbindet

Get together – get involved – profit from each other

Starting in November 2018, the city of Linz initiated the campaign "Linz connects" ("Linz verbindet"), which aims to connect associations of migrants with Austrian associations.

The initiative shows the great benefit of migrant's voluntary work and promotes a feeling of solidarity.

Therefore, all the interested parties were informed to join a workshop. During this workshop sixteen associations created nine project ideas, all of which will be realized in 2019.

The highlights of "Linz connects":

Maypole activities

In cooperation with various associations of migrants, the Austrian "Heimat- und Trachtenvereine in Linz und Umgebung" organises different activities. One of those activities is a parade in cooperation with "JAAPO - für Partizipation von Women of Color". Following associations are responsible for guarding the maypole: "the market town of Neukirchen", "Heimat- und Trachtenverein Ebelsberg Linz", "ASKÖ Thaikibo", folk-dance group "Böhmerwald in Linz", "JAAPO", folklore society "D'Linzer Holzknecht" and "Druzhba".

Culture of living together - looking for a common language

Together with "AutorInnenkreis Linz", the association "Zentrum der zeitgemäßen Initiativen (ZZI)" organises an intercultural, multilingual literary evening. In a literary context, the evening's overall aim is to discuss the idea of how "a culture of living together" can be achieved successfully, and how this can contribute to social cohesion and the intercultural dialogue.

Folklore-Festival in Linz

The association "Heimat- und Trachtenvereine in Linz und Umgebung", "Druzhba", "Gemeinschaft der Polen in OÖ", "Verein der Bürger von Bosnien und Herzegowina", "Kultur Volkstanz und Sportverein Ostrog" organise a Folklore Festival in Linz. The festival takes

place on the main street of Linz. The participating associations present traditional dances and costumes. The event ends with a collective dance.

The sound of identities

In cooperation with "Nikola Tesla", "JAAPO" organises a workshop in order to discuss topics like identity, tradition and values. The aim of the workshop is to discuss following questions: What does identity mean? What is the definition of being Austrian? When is someone identified as Austrian?

"Nikola Tesla" meets "SK VÖEST Schwimmen"

The main focus of this project is the encounter between children and juveniles of both associations. The project offers the opportunity for every participant to join the classes of the opposite association. "Nikola Tesla" offers dance classes and "SK VÖEST Schwimmen" offers swimming courses. Further activities like a day's hike and a summer party complete the offered service.

"Serbischer Sportverein Mlava" and "FC Blau-Weiß Linz"

From February 2019 to July 2019 the integration power of soccer is in the focus of this project. This cooperation enables people to get to know the Linzer football club "FC Blau-Weiß Linz". Moreover, members of "SV Mlava" can join the family day of "FC Blau-Weiß Linz". Finally, a football tournament completes the program.

Box it like Zeina

The project from the associations "Multiethnische Jugend Landesorganisation OÖ (MJÖ–OÖ)" and "ASKÖ Thaikibo Linz" is addressed to girls from different cultures with the aim to strengthen their self-confidence. In seven sessions, a female "ASKÖ Thaikibo" coach teaches the basic knowledge of boxing and condition exercises.

Know My Artist - Show Your Artist

The associations "MJÖ-OÖ" and "KunstRaum Goethestrasse" both join a multi-phase project in order to foster encounter and exchange. For this project, juveniles select their favourite, contemporary artists from different cultures – to whom they look up to - and present them to the group. This leads to a critic and creative discussion based on art. Hence, different cultures, traditions and messages are presented, collected an archived.

Graffiti Oldschool. Back to the Streets

In professional workshops juveniles from "MJÖ-OÖ" and retirees from "PVOÖ" create graffiti, both indoor (on canvas frames) and outdoor. Finally, the pictures are presented at an exhibition.
